

Certificate of da Vinci® System Training As a Console Surgeon

Adrian Schner

has successfully completed an off-site training program in the use of the *da Vinci* Surgical System as a Console Surgeon. This program consisted of didactic and practical skill application sessions covering the components and use of the *da Vinci* Surgical System and *EndoWrist*® Instruments. Additionally, a training laboratory was conducted providing utilization of the *da Vinci* Surgical System for key technical system skills as a Console Surgeon. A report of the skills metrics collected during this program, if any, has been provided to the surgeon. Surgical team roles, responsibilities, and emergent management of the *da Vinci* Surgical System were emphasized.
